Node.js | Express.js | MongoDB | Git |
Postman | Nodemailer

Soft Skills

Teamwork | Problem-solving |
Adaptability | Time management |
Multitasking

Projects

Indian-social-media-application [↗](#)

It is a social media application with all the major functionalities.

Area of Responsibility:

It's my major Individual project.

Tech-Stack

React | Redux | Chakara UI | HTML5 | CSS3 | JavaScript | Node.js |
Express.js | MongoDB | Socket.i Nodemailer | Cloudinary

Features:

- Authentication with form validation and password hashing.
- Forget and Reset-Password functionality by sending a link to the mail.
- Users can do all the CRUD operations with their posts.
- Users can like and dislike other users' posts.
- Users can update their profile picture, cover picture and also their profile.
- Users can able to change their password and delete their account from the website.
- Users can follow and unfollow other users and their timeline posts get updated accordingly.
- Users can create chats with any of the other users and do **real-time chatting** with them.
- All pages are fully responsive for all screen sizes.
